Ethically sourced and fairly traded

We support the CoffeeKids Charity.
Please support the coffee growers by donating to this wonderful charity.

All our coffee is sourced ethically and the farmers get paid a premium for growing and harvesting high quality coffee.
The farmers and pickers receive a premium which allows them to have a better life. Promoting quality and paying far above the market price is what we are all about.

Absolute Teas - Speciality Teas

We have sourced some of the finest speciality teas from countries such as China, India, Japan, Sri Lanka, Kenya and more.

High quality loose leaf teas add value to your business and will give you a position in the market of fine teas. Why serve your customers a tea bag when you can easily serve exciting and refreshing loose leaf teas?

Easy to brew

Many people see loose leaf teas as a difficulty. Serving loose leaf tea is actually rather easy. One of the simplest ways is to brew the tea in a cafetiere. You could also source tea pots with an infuser. We prefer the cafetieres as they make it extremely easy to serve and allows the customer to decide the brewing time.

Most teas will work out about 8p per 2cup cafetiere.
